

Kundalini Rhythms Dance Facilitator Course 60hr Online

How to Get Certified

To get your final Diploma, you will need to pass the written, practical, and oral exam for each of the three courses.

You will get a separate certificate for each program. You'll be able to teach right after the first course is done, and you pass the exam successfully.

Simona will teach a technique that she invites you to practice and follow until you feel comfortable and confident. After you build up your self-confidence and experience, you will be free to create your sacred dancing modality. Simona will never force you to stick with one method, and once you have acquired your knowledge and experience, she will be happy to guide you into creating your methodology.

Simona only asks you to respect what she shares with you by keeping the teachings sacred and honored as you begin to bring them forth into the world. The founder, Simona Dharma Devi, studied and practiced for a lifetime to put together this program and system. So this is so special to her and has put a much time, energy, dedication and focus with a life's worth of knowledge and experience

into this course. She feels deeply honored to share her experience with you, and she wants you to be creative when bringing forth these teachings and in your full power. As you bring the teachings forward it is noticed, to be respectful of the creator of this course, by paying gratitude and respect to who graciously brought you these gifts to create as your own.

A great teacher , along their continued journey, will often mention with reverence their teacher who gifted them with this life time of work, with deep gratitude. This is the respectful way.
